the world that lies in store for us over the next 25 years will surely challenge our received wisdom about how to protect american interests and advance american values with these words the commission on national security in the 21st century captured the exciting challenges this study sets out to explore first this study develops a generalized model for united states military transformations in peacetime to develop the model the author combines observations made by several historians about recurrent trends in military strategic innovation the author concludes that after taking into account inevitable uncertainty there are three identifiable factors that occur in most cases of military transformation the three key factors are the need for a coherent congruent vision an emerging culture that bolsters the vision and develops competing theories of victory to fulfill the vision and a process for honestly assessing the maturing vision and its

supporting theories of victory after defining the limitations of the model and its usefulness the author applies the framework to an important aspect of national security the future of space power the framework is used to study the recent approach to space power from a civilian policy and military application perspective application of the transformation model highlights some important points about the present approach for developing space power first the civilian vision is not completely congruent with the military vision and the military vision is inconsistent second the military primarily the air force has made moderate but hesitant progress towards nurturing a space power culture with some unexpected consequences third the military has an uncoordinated haphazard approach to assessment that blurs the merit of the space power vision and associated theories

application of new technology to the management of scientific and technical information relies upon a thorough grounding in basic concepts the acquisition storage retrieval and dissemination of material is becoming ever more complex and is a process which requires an understanding of how knowledge is perceived by the end user the mechanics of data transfer and the principles of responsible information exchange in addition the proliferation of information and the variety of media currently available make clear objectives and practical solutions essential the agard technical information panel tip has produced a number of publications aimed at establishing and raising the standard of information management this seminar brings together expert speakers to update the information in these publications and to contribute towards the further improvement in basic documentation practices this seminar sponsored by the technical information panel of agard has been implemented by the consultant and exchange programme annotation seminar on basic documentation practices translation stinet

When people should go to the book stores, search introduction by shop, shelf by shelf, it is really problematic. This is why we give the books compilations in this website.
